RE: Atlas Reference

Dear Mr. Dillon,

As the Town Engineer for the Town of Schererville, McDonough Associates Inc. had the pleasure of working with Atlas Excavating on the Schererville 65th Avenue Sanitary Sewer. Your crews performed this \$700,000 project in a timely, professional and satisfactory manor. I have known one of your employees, Gab Horn, for many years and it was another good experience to work with him and Josh Reasoner on this project.

Your employees on the site were always responsive to any concerns the Town or our field staff had and consistently resolved unforeseen field condition issues quickly and economically. We would recommend Atlas Excavating for any similar projects in the future.

Sincerely,

Timothy D. Werner, P.E.
Manager
McDonough Associates Inc.
